

FACTORS TO CONSIDER WHEN CHOOSING A **VoIP PROVIDER**

Reliability - Our system monitors the status of the phones with every phone call. If your internet goes down we can automatically re-route calls to another site, an answering service or even your cell phone.

Support - We offer a knowledgeable support staff able to quickly help you with any issues you may have, all of which is done remotely with little to no disruption.

Ease of use - Our VoIP phones are very intuitive with on screen displays and easy menus. Our staff is ready to support and train you. We also have a fully documented online knowledgebase with an easy search function.

Features - We offer over 70 features at no additional cost including: Auto Attendants, Call Queues, Voicemail to Email, and Call Recording.

Cost - VoIP eliminates the hassle of costly setup fees and downtime. Get your phones online within minutes and avoid paying for hours of onsite technician work.
